PlanMill Release 12.1.1

What's new in PlanMill Release 12.1.1

(Released: October 14, 2009)

PlanMill Release 12.1.1 comes with several new enhancements and major usability improvements, as well as addressing known and fixed issues.

Key features and enhancements

- Google Maps - Easy way to view addresses via link within Google Maps.
 - View PlanMill *Accounts* --> *Contacts* > *Project space* (Overview) --> *Users modules*.
 - For Security option settings with IE 8.0, click *Tools*--> *Internet Options* --> *Security* --> *Custom level* --> *Miscellaneous* --> *Display mixed content* has to be changed from default setting *Prompt to Enable*.
- List view & filters section - Ability to Hide and Show filters by double clicking.
- List view & reset sorting - Save selected column as Personalized default. Use reset sorting to update default setting.
- Revenues summary by month report - New Project status filter added.
- Security - Enhanced password validation when saving new password.
